To Whom It May Concern:

In the case of seismic activity, the little earthquakes that happen all over the licensed area of Crow Butte, the Cameco Uranium Company, where hundreds of holes are drilled - and if a pipe leaks - AND GETS IN THE GROUND WATER, the town of Crawford will be no more and that will only be the beginning. The faults & fissures that appear, the water ways toward THE WHITE RIVER, which flows into the Pine Ridge Reservation in So. Dak. PLEASE SHUT DOWN the Cameco URANIUM MINE. Too many people in Crawford, Nebr. & around the community have died of CANCER! ^{from drinking the water.} This is what I've observed, & heard & I'm concerned. signed, *Shirley L. Bird*
