

Aug 27, 2015

Attn: NRC

This letter is to relay my opinion regarding the proposed mining of uranium on Crow Butte by Cameco, I am against the granting of the permit!

I do not want Cameco to mine Crow Butte.

NRC, deny the permit!

P.S. People's drinking water should be prioritized above and before any mining operations!

(over)

In addition, the White River will be affected which flows through several counties in SD.

It also runs into the Missouri River which the "Mni Wiconi" pumps water out of... and is used as drinking water for several counties.

As a human, I ~~am~~ am against water being used in mining that will contaminate water!
