

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-043; NRC-2014-0149]

Early Site Permit for the PSEG Site

AGENCY: Nuclear Regulatory Commission.

ACTION: Final environmental impact statement; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) and the U.S. Army Corps of Engineers (USACE), Philadelphia District, are issuing the final environmental impact statement (EIS), NUREG–2168, “Environmental Impact Statement for an Early Site Permit (ESP) at the PSEG Site: Final Report” for the PSEG Site ESP application. The site is located in Salem County, New Jersey.

DATES: The final EIS is available as of November 20, 2015.

ADDRESSES: Please refer to Docket ID **NRC-2014-0149**, when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this action by the following methods:

- **Federal Rulemaking Web Site:** Go to <http://www.regulations.gov> and search for Docket ID **NRC-2014-0149**. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; e-mail: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- **NRC’S Agencywide Documents Access and Management System (ADAMS):**

You may obtain publicly-available documents online in the ADAMS Public Documents collection at

<http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov. The final EIS and an accompanying reader’s guide are available in ADAMS under Accession No. ML15176A444.

- **NRC’s PDR:** You may examine and purchase copies of public documents at the NRC’s PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.
- **Project Web Site:** The final EIS can be accessed online at the PSEG ESP specific Web page at <http://www.nrc.gov/reactors/new-reactors/esp/pseg.html>.
- **Salem Free Public Library:** The final EIS is available for public inspection at 112 West Broadway, Salem, New Jersey, 08079.

FOR FURTHER INFORMATION CONTACT: Allen Fetter, Office of New Reactors, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-8556, e-mail: Allen.Fetter@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with Section 51.118 of Title 10 of the *Code of Federal Regulations*, the NRC is issuing the NUREG-2168, “Environmental Impact Statement for an Early Site Permit at the PSEG Site: Final Report.” A notice of availability of the draft EIS was published by the NRC in the *Federal Register* on August 22, 2014 (79 FR 49820) and also noticed by Environmental Protection Agency on August 29, 2014 (79 FR 49774). The public comment period on draft EIS ended on December 6, 2014, and the comments received are addressed in the final EIS. The purpose of this notice is to inform the

public that the final EIS is available for public inspection which is indicated in the ADDRESSES section of this document.

The final EIS also supports the USACE's review and was prepared in accordance with the National Environmental policy Act of 1969, as amended. The final EIS also supports the USACE's review of the Department of the Army permit application from PSEG (CENAP-OP-R-2009-0157-45). The USACE's Public Interest Review will be part of its Record of Decision and is not addressed in the final EIS.

II. Discussion

As discussed in the final EIS, the NRC staff's recommendation related to the environmental aspects of the proposed action is that the ESP should be issued. This recommendation is based on: 1) the Environmental Report (ER) submitted by PSEG Power, LLC, and PSEG Nuclear, LLC (PSEG), as revised; 2) consultation with Federal, State, Tribal and local agencies; 3) the NRC staff's independent review; 4) the NRC staff's consideration of comments received during the environmental review; and 5) the assessments summarized in the final EIS, including the potential mitigation measures identified in the ER and in the final EIS. In addition, in making its preliminary recommendation, the NRC staff has concluded that there are no environmentally preferable or obviously superior sites in the region of interest.

Dated at Rockville, Maryland, this 13th day of November, 2015.

For the Nuclear Regulatory Commission.

/RA/

Frank Akstulewicz, Director,
Division of New Reactor Licensing,
Office of New Reactors.
