**SUBJECT: SURREY NUCLEAR POWER PLANT - OPERATOR LICENSING -
EXAMINATION APPROVAL 05000280/2015301 AND 05000281/2015301**

Dear Mr. Baker:

The purpose of this letter is to confirm the final arrangements for the upcoming licensing examinations at Surry Power Station.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to your office. Note that any examination waivers and application denials have been addressed in separate correspondence.

The U.S. Nuclear Regulatory Commission (NRC) has approved the subject examinations and NRC staff will administer the operating tests during the week of September 21, 2015. You may administer the written examinations in accordance with Revision 10, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of September 28, 2015.

This examination has undergone extensive review by my staff and representatives responsible for operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operators at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (404) 997-4662.

Please contact the Chief Examiner, Ms. Amanda Toth, at (404) 997-4520 if you have any questions or identify any errors or changes in license level (RO or SRO) or type of examination (partial or complete written examination) specified for each applicant on the list of approved applicants.

Sincerely,

/RA/

Eugene F. Guthrie, Chief
Operations Branch 2
Division of Reactor Safety

Docket Nos.: 50-280, 50-281
License Nos.: DPR-32, DPR-37
