## General Comment

I believe it has taken 60 yrs for the nuclear industry to screw the earth to a place that is becoming unliveable, don't you thoink it's time to admit failure, nuclear is not cheap,its not economical, and it is killing the earth slowly and surely,so think deeply about what you are giving to the people of the world, your reward is money our reward is sickness and an early grave, you guy's sleep with that knowledge, because you know it's true? Will not at this stage give you my address info because you people can't be trusted!
