**SUBJECT: DIAGNOSTIC LABORATORIES, LLC, TRANSFER OF CONTROL, CONTROL
NO. 588227**

Dear Dr. Arp:

By letter dated July 7, 2015, Diagnostic Laboratories, LLC submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent to indirect license transfer of NRC Materials License No. 41-31476-01. Based on the information you provided, we understand that PharmaLogic Holdings Corp. will acquire 100% of the stock of the three current individual indirect owners of Diagnostic Laboratories, LLC, Scott Holbrook, Alan Arp, and Ware Mitchell. Diagnostic Laboratories, LLC will continue to operate its business and will retain its federal employer identification number. We further understand that this transfer will not result in any change to the licensee name, licensed materials, persons using the licensed material, location of use of licensed material, or persons responsible for the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's review of the request, we have no objection to the proposed transfer. We understand that the transfer will take place on September 1, 2015. Please note that you will need to notify us promptly, in writing, after the transaction has been finalized and include a signed copy of the sales agreement confirming completion of the transaction. If this planned sale has not been consummated within 30 days of the date of this letter, please notify us in writing. Please contact me at 610-337-5006, or by e-mail at janice.nguyen@nrc.gov.

Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(21).

A. Arp
