Delta Consulting Engineers of the Caribbean Inc.
Docket: 030-34587;
Nuclear Regulatory Commission (NRC) License No. 52-25415-01, Expires on 12/31/2017;
President: Serafin Sousa, Jr., 305-986-6872, ssousa@cfassociates.com ; ssousa@dceinc.net

Mr. Serafin Sousa Jr.,
This e-mail is being provided as a courtesy to you regarding outstanding licensing fees for NRC License No. 52-25415-01.

Please contact Mr. Dylan Oursler (301-415-5825, Dylan.Oursler@nrc.gov), NRC Financial Management Specialist, Accounts Receivable, who will provide you with an explanation of the outstanding fees and obligations that are due; failure to do so will only exacerbate the issue and result in escalation of collection procedures.

For the convenience of all, I am attaching your reply letter, dated Sept 29, 2015, to the NRC Order issued on July 17, 2015.

Your application for termination of your license is still being processed and has not yet been completed. You will receive a letter when the termination of your license has been completed.

Thank you for your consideration,

James R. Cassata, Ph.D., CHP

Mr. Serafin Sousa Jr.,
Thank you for the copy of your submission for termination of your license. I will submit it to our Administration Department for processing and assignment to a reviewer. If there are any questions about your termination application the reviewer will contact you directly.

The paperwork you provided shows that your NRC licensed material has been transferred to License No. 52-25430-01 CRMI (David Rhoel) and is no longer in your possession. Please do not take possession of any radioactive material or devices containing radioactive material at this point because you have requested termination of your license.

Sincerely,

James R. Cassata, Ph.D., CHP
