General Comment

Dear Mesdames and Sirs:

While I do not have the influence and power of the politicians, corporation heads or the extremely wealthy, I hope my opinion might count with your upcoming decision over radiation issues.

First, it is unbelievable that nuclear power has become an industry that continues to grow while at the same time, NO ONE HAS FIGURED OUT HOW TO GET RID OF THE DEADLY BY-PRODUCTS. This makes as much sense as leaving lots of Round-up (carcinogen) or poisons lying around one's house while giving instructions to those living there to stay away from these dangers. What kind of greed causes man to create these great dangers without having any sort of reasonable plan to dispose of the spent fuel rods, etc.?

This problem only increases daily and it has been documented that those living around nuclear power plants are living in a dangerous situation with exposures much higher than ordinary citizens - yet most people don't know this thanks again to the disgusting greed of those in power WHO CONTROL THE MEDIA.

I object to the petitions presented to you that would raise the radiation levels and delete the sentence that refers to limits of radiation.

May one comment be made that might possibly influence your thinking?

Pacific Ocean - thousands of dead seals, whales, fish, turtles, birds in fact all life in the Pacific is facing total decimation. Due to the world ignoring the continual leaks from Fukushima in the ocean that ultimately could see the end of the world as we know it.

These poor dead animals continue to wash up on the shores of the West Coast. Horses lose their skin with no explanation. Cattle in California are simply pathetic to see. Yet the greed of those very evil people who insist on not informing the public will have a definite impact on all life on Earth. Only a fool would disagree with this.

The fact that so many lies have been told about Fukushima - including the offensive report that says Japanese people have not been harmed is simply unacceptable. A teacher in Japan has been keeping a picture journal of the effects on her own health - bleeding gums, loosing teeth, etc. There are many reports about this but the clever greedy people in charge won't allow this to be reported and it takes a lot of work to find these truths.

Sooner or later, the entire world will be inundated with radiation. The effects long-term are lowering of IQ after 2-3 generations. Have you looked at the pictures of the poor children who are victims of Chernobyl? They are disfigured, mentally challenged and many are unable to take care of themselves. Those who look the other way are as guilty as the greedy people who insist radiation cannot hurt you. DEPLETED URANIUM ESPECIALLY IN IRAQ are in terrible shape and it is our government's fault entirely. Wikipedia has very descriptive article about the men who first died from radiation exposure - acute death! The most horrible way to die and quite unnatural.

Transhumanism must be already in the works. But the truth is, this never goes away and by destroying the beauty that we were blessed with from God, we are making sure our future will be very dismal. Earth is a living thing, too and has a right not to be destroyed by the small minded Greeps (greedy creeps) who lack the intelligence or decency or even sensitivity to do the right thing. Please wake up - we are all going to die if this nightmare is not stopped. Especially since other forms of power have been developed - magnetic generators in Australia and many other ways to produce energy are found all over the world. Yet those in the government continue to pretend to be a democratic process and pretend to care what others think. Please rethink this entire matter.

I am against the petitions submitted to you in February, 2015. Please do not make it even easier to wipe out life.

Your consideration of this matter is appreciated.
