## General Comment

Radiation is not good for you in high doses, or anything.

These are same morons that told the Japanese people if you smile radiation won't harm you, and if you duck and cover you won't be harmed by the Nuclear blast.

This is Psychological Warfare by bunch of idiots that test Nuclear bombs.  
allow people to live next to a leaking Reactor(Fukushima), and believe that there old practices are still relevant today.

Doses of Radiation are not good for anyone that includes fighting the scam called Cancer. Which by the way will increase quite a bit by all the radiation.
