Subject: RE: Luminox Drawing for review

Mr. Robertson,

After reviewing your diagram, we have determined that the diagram is missing some required information. In addition to the information in the diagrams you provided, please include the following information for each watch series:

1. Tritium sources dimensions (length and width).
2. Distance from source in hands to the edge of dial.
3. Specified the model number of the sources used for each part of the watch (dial, hour hand, minute hand, second hand, bezel, etc.). This information can be provided in a table.

Any correspondence regarding your application should reference the control number 586355. Please submit the requested information in an official signed letter by October 5, 2015. If we have not received complete information by October 5, 2015, we will assume that you do not wish to pursue your application, and we will take regulatory action to your current NRC License, 04-23929-01E.

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

In accordance with 10 CFR 2.390 a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions please let me know.

Best regards,

Hector Luis Rodríguez-Luccioni, Ph.D.

Subject: [External_Sender] Luminox Drawing for review

Mr. Rodriguez,

Attached is what my marketing department has sent me as a example for your review before I submit the entire packet.

We have added:

1. Distance between sources
2. Distance from sources to edge of dial. Please note that if the tube is located on the dial (Example pic #2), then no measurement is recorded.
3. On the side view cut-away, the hour, hand, minute and second hand are identified along with whether or not a source is present.

Upon your approval, I will finalize and forward to your attention.

I will also be sending a Sworn Affidavit request pursuant to 10 C.F.R. Section 2.390 for exemption from disclosure to the public of certain information labeled "Trade Secrets-Confidential Commercial Information".

Thank you

Max W. Robertson
