September 08, 2015

Docket No. 03037848  
Control No. 588542

License No. 08-31338-01

Fadil M. Abdelfatah, P.E.  
President  
FMC & Associates, LLC  
P.O. Box 70263  
Washington, DC 20024

SUBJECT: FMC & ASSOCIATES, LLC, LICENSE AMENDMENT, CONTROL NO. 588542

Dear Mr. Abdelfatah:

This refers to your letter dated July 20, 2015, requesting amendment of your NRC license and your letter dated August 31, 2015, in response to a request for information during the telephone conversation between you and Scott Wilson of this office on that date. Changes to the license with this amendment include naming Mr. Kaleab Desta as Radiation Safety Officer, and authorization for possession of Troxler Model 4640-B portable gauging devices with associated increase in the maximum amount listed in section 6.A. Enclosed with this letter is the amended license.

Please note that an amendment to your license is required prior to acquiring any devices or byproduct materials that require an NRC license to possess, if that byproduct material or device is not already authorized on the license.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture

F. Abdelfatah

Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

***Original signed by Scott Wilson***
