Comments on NRC ANPR for 10 CFR Part 50, Appendix I
Radiation Protection
Docket ID NRC-2014-0044
Federal Register Volume 80, Number 164
Dated August 25, 2015, Pages 51481 - 51482

Dominion Resources Services, Inc. (Dominion) appreciates the opportunity to comment on the Advanced Notice of Proposed Rulemaking (ANPR) for 10 CFR Part 50, Appendix I, Reactor Effluents, as described in the subject *Federal Register* notice.

Nuclear Energy Institute (NEI) submitted industry comments regarding this subject to the NRC on September 29. Dominion endorses NEI's position in concluding the changes proposed by the NRC are not warranted from a health and safety vantage perspective, are not cost-beneficial, and provide little enhancement in the health and safety of workers, the general public, and the environment. Dominion encourages the NRC's consideration of the NEI comments.

If you have any questions, please contact Mr. Carl Tarantino at Carl.Tarantino@dom.com or (804)273-3068.

Respectfully,

for T. R. Huber
