Re: Amendment to License Renewal letter dated September 5, 2012 (copy attached)

Dear Sir or Madam,

Under line #8 (Training for Individuals Working in or Frequenting Restricted Areas) of the referenced license renewal, there was a statement "The level of training will depend upon the groups identified below. Training will take place at time employee enters position with refresher training on a semi-annual basis." Agilent requests an amendment to this statement to change the refresher time frame from semi-annual to biennial. This was an error in the 2012 application. The biennial basis (i.e., once every two years) will be more consistent with other Agilent training requirements for employees working with hazardous materials.

Please contact me as shown below if you have any questions associated with this notice or David Bennett (RSO) at 302-636-8262 if you have any technical questions.

Sincerely,
