RE: NR-0469-S-113-S

Dear Dr. Valentin-Rodriguez:

This is in response to your email dated September 29, 2015, requesting additional information needed to complete the amendment to Registration Certificate NR-0497-S-113-S.

- *The labels submitted with your letter do not reference the distributor's name and address in the U.S. Please provide a copy of the labels which identify Elekta as the distributor and include Elekta's address. In addition, the labels must be in accordance with 10 CFR 32.74(a)(3), which requires the following statement, "The U.S. Nuclear Regulatory Commission has approved distribution of the (name of the source) to persons licensed to use byproduct material identified in 10 CFR 35.400."*

Please find attached the newly designed label (151051-00: I-125 Seed "Distributed in US by" Label) which will be affixed to the sterile pouch. Diagram of Label Placement attached. This label does not need to be attached to the outside of the box in addition to the sterile pouch, since the Order Information label (Label 15 on Diagram) includes the Elekta Inc. name and address. Furthermore, this outer packaging will be discarded after receipt acceptance. Supporting documentation for Order Information Label and Shipment Box Label attached.

Should you have any further questions or need additional information, please feel free to contact the undersigned at 770-670-2518 or via email at debbie.bensen@elekta.com.

Sincerely,

Debra L. Bensen, RSO
Regulatory Affairs
