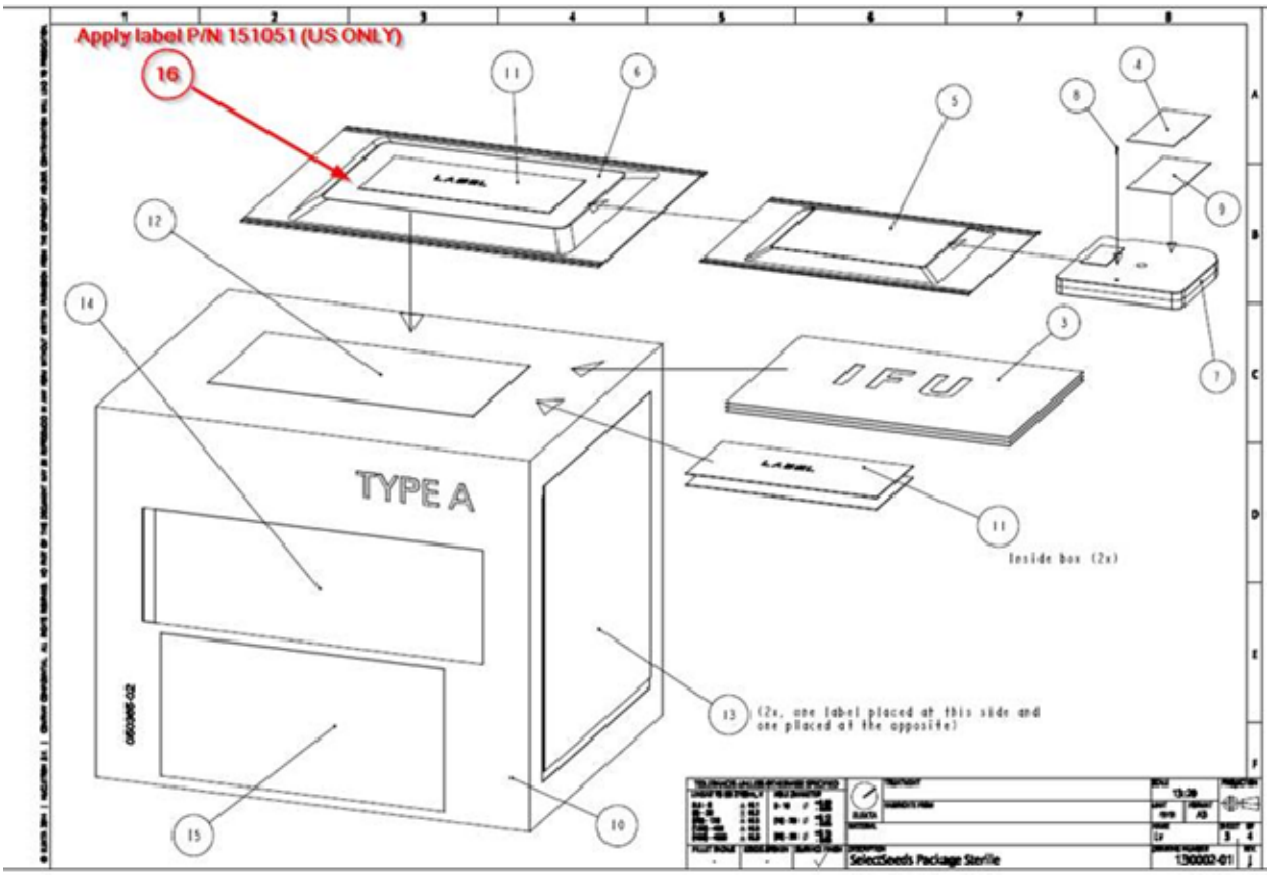
Diagram of Label Placement

This is the corresponding locations drawing. New label (16) is attached to the sterile pouch.



Rationale for not attaching the new label to the outside:

- Label 15 (P/N 151040) shows the Order Information. This includes the Elekta Inc. address (see item 4, Page 1 of 2 151040-00-DW-00_Order Information Label) for USA shipments.
- Label 13 (P/N 150985) shows clearly that the box contains radioactive material (150985-00-DW-00_selectSeed Shipment Box Label).
