Compilation of Telephone Logs
Investigating Potential Existence of Subsistence-Like Populations
in LaSalle and Grundy counties, Illinois

March 13, 2014

Tetra Tech, Inc., Aiken, South Carolina, called selected government agencies and private social welfare organizations to determine if there is positive or anecdotal evidence of populations exhibiting subsistence-like living. No such populations were identified by those called.

Those called were:

- University of Illinois Extension for LaSalle County
- LaSalle County Health Department
- Salvation Army in Ottawa
- University of Illinois Extension for Will, Grundy, and Kankakee counties
- Grundy County Health Department
- United Way for Grundy County

LaSalle County Station License Renewal Environmental Report
Project 194-4735
