Subject: [External_Sender] NJ's Part 37 license condition

To Whom it May Concern:

Attached for your review is a copy of the proposed license condition to address implementation of 10 CFR Part 37, Physical Protection of Byproduct Material. The legally binding requirements correspond to the following equivalent amendments to NRC's regulations.

<u>RATS ID</u>	<u>Title</u>	<u>State Section</u>
20013-1	Physical Protection of Byproduct Material, Part 37	License Condition

We believe that adoption of these legally binding requirements satisfies the compatibility and health and safety categories established in the Nuclear Regulatory Commission's Procedure SA-200.

For your information, we expect our new proposed Subchapter 65 (Part 37 incorporated by reference) will be published on October 19, 2015. Because we cannot guarantee that the new rule will be adopted by March 19, 2016, we are requesting approval of the attached license condition.
