

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 2, 2015

Ms. Gianna C. Clark
Vice President – Nuclear Support Services
Virginia Electric and Power Company (Dominion)
Innsbrook Technical Center
5000 Dominion Blvd.
Glen Allen, Virginia 23060-6711

SUBJECT: NORTH ANNA INDEPENDENT SPENT FUEL STORAGE INSTALLATION AND
SURRY INDEPENDENT SPENT FUEL STORAGE INSTALLATION -
TEMPORARY MODIFICATION OF IMPLEMENTATION OF NRC ORDER
EA-02-104

Dear Ms. Clark:

By letter dated October 1, 2015, Virginia Electric and Power Company (Dominion) requested a one-time modification from specific interim compensatory measures (ICMs) listed in the U.S. Nuclear Regulatory Commission (NRC) Order EA-02-104 for the North Anna Independent Spent Fuel Storage Installation (ISFSI) and Surry ISFSI. Dominion indicated that due to the severe weather associated with Hurricane Joaquin, it might be necessary to modify implementation of several of the ICMs contained in the Order. Specifically, Dominion proposed a one-time modification to the implementation of its response to ICMs C.1.b, C.3.a(1), and C.3.d of the Order.

The NRC staff has concluded that your proposed one-time modification to the ICMs contained in NRC Order EA-02-104 is acceptable for the North Anna ISFSI and Surry ISFSI. In accordance with 10 CFR 73.55 (p)(3), the North Anna and Surry Power Plants are required to report and document any suspension of security measures in accordance with the provisions of 10 CFR 73.71. Since Dominion will be reporting any suspension associated with the North Anna and Surry Power Plants, we request that you also report any suspension of security measures related to the ISFSIs in the same manner. The NRC staff understands that the contingency plans proposed by Dominion will no longer be used once the severe weather condition has passed.

Sincerely,

A handwritten signature in cursive script that reads "Catherine Haney".

Catherine Haney, Director
Office of Nuclear Material Safety
and Safeguards

Docket Nos.: 72-2 and 72-16
