Art,
Thermo Fisher did receive your radioactive material, and, we can provide a copy of the letter which was sent directly to Adco for your records. Mr. Danny Vicente, who is copied on this email, will provide a copy of this letter next week.

Thanks,
Marvin

Marvin,

Attached is information you requested on the 11 Cs-137 Tube Sources and 1 Cs 137 Rod Source that ADCO picked up from our site on 02-24-2012.

Thanks.

Art,
Given that Adco sent us this purchase order for disposal, I doubt you have the RMA (return material authorization) number that we provided them. Do you have the RMA number??

If you do not have the RMA number, I need details of the material. For each source you sent, I need the ...

Manufacturer
Model Number
Serial Number
Isotope
Original Activity

Once I get this information, I can start researching what happened to your material.

Thanks,
Marvin Smith

Subject: Requesting Letter Confirming Receipt of Sealed Sources

My hospital is renewing our NRC Material Licence. The NRC is requesting from us to provide to them (NRC) a letter from Thermo Process Instruments confirming receipt of the referenced sealed sources (Note: I have included the attached bill of lading from ADCO listed Thermo Process Instruments received these sources on March 14, 2012 @ 6:25 AM by Yolanda Garcia and Dale Benson).

I have also include the cover letter from ADCO , page 1 of 12 of the Radioactive Material License from Thermo Process Instruments LP and a copy of page 1 of 2 from the letter the NRC sent us requesting the information I have listed in this letter.

I would like to submit all the requesting information to the NRC from my hospital (including the letter from Thermo Process Instrument) by the end of this week (August 21, 2015).

Please sent this letter to me at my e-mail: art.ewald@mclaren.org.
