Division of New Reactor Licensing

Docket No. 52-046  
MKD/NW-15-0140L

**Subject: Response to RAI 123-7920**

**Reference: NRC Request for Additional Information 123-7920, dated August 4, 2015**

KHNP is hereby submitting the response to RAI 123-7920, dated August 4, 2015. The RAI response addresses question 11.01-3.

Enclosure 1 contains a copy of the associated affidavit. Enclosure 2 provides the response to RAI 123-7920 (Non-Proprietary). Attachments 2 and 3 of Enclosure 2 contain the input and output files of the updated LADTAP II code calculation, respectively, and have proprietary information.

If additional information or clarification is required, please contact Daeguen Ahn, Director of KHNP Washington DC Center at [ahn.daeguen@khnp.co.kr](mailto:ahn.daeguen@khnp.co.kr) or 703-388-0592.

Sincerely,

Jae-yong Lee  
Project Manager  
Advanced Reactors Development Laboratory  
Korea Hydro and Nuclear Power Co., Ltd

Enclosures:

1. Affidavit KAW-15-0140
2. Response to RAI 123-7920 (Non-Proprietary)

## **Enclosure 1**

### **Affidavit KAW-15-0140**

I, Jae-yong Lee, state the following:

1. I am the Project Manager of Korea Hydro & Nuclear Power Co., Ltd. (KHNP), and as such I am authorized to request withholding the information transmitted with this letter from public disclosure and to execute this affidavit.
2. I am familiar with the criteria applied by KHNP to determine whether certain information is proprietary, and with the policies established by KHNP to ensure the proper application of these criteria.
3. The information, input and output files of the updated LADTAP II code calculation (Proprietary), transmitted with this letter has been classified by KHNP as proprietary in accordance with the policies for the control and protection of proprietary and confidential information. The information regarded as proprietary is identified and marked consistent with the requirements of 10 CFR 2.390, § (b)(1)(i). Accordingly, the proprietary information is enclosed within brackets and the right-hand bracket carries a notation of “TS” to indicate that the trade secret nature of the information claimed to be proprietary is the basis for proposing that the information so identified be withheld from public disclosure.
4. Pursuant to the considerations set forth in 10 CFR Section 2.390(a), KHNP considers the information classified as proprietary to be “trade secret” information since it is design, analysis, or test information that would be difficult for a competitor to reproduce and hence provides an economic and competitive advantage to KHNP.
5. The need for designating the information as proprietary has been raised within KHNP. The information is being treated proprietary and confidential and has not been disclosed by KHNP to the public.
6. Nondisclosure of the proprietary information transmitted with this letter is vital to the competitiveness held by KHNP and, hence, disclosure of the proprietary information transmitted in with this letter would have negative commercial impacts on the competitive position of KHNP in the U.S. nuclear market.
7. In accordance with KHNP policy, proprietary information contained in this document may be, or may have been, made available on a limited basis to regulatory bodies, customers, potential customers, and their agents, suppliers, and licensees, and others under suitable agreements providing for nondisclosure and limited use of the information.

I declare that the foregoing statements are true and correct to the best of my knowledge, information and belief.

Executed on September 14, 2015.

---

Jae-yong Lee  
Project Manager  
Advanced Reactors Development Laboratory  
Korea Hydro and Nuclear Power Co., Ltd

## **Enclosure 2**

Response to RAI 123-7920

(Non-Proprietary)
