Re: Dr. Sulman Hussain D.O.  
Radioactive Materials Licensing

To Whom It May Concern:

It is my pleasure to provide information regarding my relationship and understanding of Dr. Sulman Hussain. I first met Dr. Hussain when he was in college and he did a preceptorship with me in 2004. He did this again in 2005, just prior to starting medical school. Through medical school, he often came and read nuclears with me. Starting in July 2012, he became a cardiology fellow within our program. He completed his training in June 2015. During that time, he had at least two month rotations with me each year. It is my understanding that he finished the radiation safety course in June 2014. While with me he reviewed over 750 nuclear studies. He learned processing and, of course, performed several stress tests. It is with pleasure that I recommend that Dr. Sulman Hussain be awarded a license for nuclear cardiology interpretations.

Sincerely,

Robert L. Litchfield, DO, FACC, FACP
