ARLINGTON TX 76011-4511

October 5, 2015

Mr. Warren Barse
Radiation Safety Officer
C & W Enterprises, Inc.
P.O. Box 542
Harrisburg, South Dakota 57032

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 40-26938-01

By correspondence received on August 24, 2015, you informed the U.S. Nuclear Regulatory Commission (NRC) that C & W Enterprises, Inc., wished to terminate NRC radioactive materials license number 40-26938-01. The NRC Form 314 dated August 18, 2015, stated that all radioactive material had been transferred to a licensed entity.

The supporting documentation to the NRC Form 314 provided a copy of the most recent leak test results indicating that there was no evidence of leakage of radioactive material from the sealed sources. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from the facility and the facility located at 27268 Ironworks Avenue, Harrisburg, South Dakota, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 12 to License No. 40-26938-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B
