NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October, 28, 2015

Geoffrey Korir, Ph.D., Director
Office of Radiological Health
New York City Department of Health and Mental Hygiene
42-09 28th Street 14th Floor, CN 60
Long Island City, New York 11101

Dear Dr. Korir:

We have reviewed the final revisions to the New York City Department of Health (NYC DOH) license condition to Title 10 of the *Code of Federal Regulations* Part 37 and regulations in the New York City Health Code 175 RAMS Sections 175.01 and 175.101-105, received by our office on September 30, 2015. The license condition and regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the legally binding requirements and regulations you on October 27, 2015.

As a result of our review, we have one comment. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the NYC DOH regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final NYC DOH regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

The SRS Data Sheet summarizes our knowledge of the status of other NYC DOH regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

Additionally, please note that NRC has previously issued certain security Orders to one NYC DOH licensee. We have not listed the name of the licensee in this letter because that information is Official Use Only and cannot be made publicly available. Because the NRC-issued Orders are still legally binding, they must be rescinded by NRC concurrent with NYC DOH's promulgation of final regulations or legally binding requirements. Accordingly, close coordination is needed between NRC and your office to ensure there are no conflicts, duplications, or gaps regarding the security-related requirements for these licensees. Please contact Adelaide Giantelli, Source Management and Protection Branch Chief, NMSS for information regarding the affected NYC DOH licensee and for coordination with rescission of the NRC-issued Orders and NYC DOH imposition of the legally binding requirement on this licensee.

G. Korir
