Subject: NRC Request for Information for Clarksburg Cardiology Consultants, Inc. (Mail Control Number 588631)

Licensee: Clarksburg Cardiology Consultants, Inc.
License No: 47-30844-01
Docket No: 030-36429
Control No: 588631

Hi Ms. Long,

Could you please reply back to this email to confirm receipt?

This is in response to your amendment request dated August 10, 2015. The action appears to be a possible change of control. In order to continue our review, please provide the following additional information:

1. Please provide a complete description of the transaction (i.e. is this a merger, a transfer of stocks or assets, etc.), and confirm if this is a direct or indirect change of ownership. Please include the title and contact information (phone number, fax number, and email address) for Sathyanarayan M. Reddy, M.D.
2. Please indicate corporate structure, including all parent companies, prior to the corporate transaction, and the corporate structure following the corporate transaction. An organizational chart may be helpful to indicate organizational structure, before and after the sale.
3. Please confirm the date of the transaction is still set on or about October 1, 2015.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov<<http://www.nrc.gov>>; select Nuclear Materials; Med, Ind, & Academic Uses; then Licensee Toolkits, see our toolkit index page. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

You may respond to my attention in writing by letter, email (if letter is signed by senior management and scanned into a pdf format), or fax (610-337-5269), referencing mail control number 588631. If we do not receive a reply from you within 30 days, we will assume that you do not wish to pursue your application.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities."

Thank you for your cooperation. Please feel free to contact me by telephone or e-mail if you have any questions.

Sincerely,

Jan Nguyen
