Docket: NRC-2015-0057

Linear No-Threshold Model and Standards for Protection Against Radiation

Comment On: NRC-2015-0057-0086

Linear No-Threshold Model and Standards for Protection Against Radiation; Extension of Comment Period

Document: NRC-2015-0057-DRAFT-0361

Comment on FR Doc # 2015-20722

Submitter Information

Name: April Pak

General Comment

We need greater protection against radiation (including testing of fish from areas where radioactive discharges are known), not a relaxing of our standards. Decades of conclusive scientific study has shown a direct link between radiation exposure and cancer. Cancer is at epidemic proportions in our country and we cannot afford to make policy changes that will increase those risks. Thanks for considering these comments.
