LICENSEE: FirstEnergy Nuclear Operating Company

FACILITY: Perry Nuclear Power Plant, Unit 1

SUBJECT: SUMMARY OF SEPTEMBER 29, 2015, MEETING WITH FIRSTENERGY NUCLEAR OPERATING COMPANY, ON FENOC'S UPCOMING REQUEST TO CHANGE EMERGENCY ACTION LEVELS AT PERRY NUCLEAR POWER PLANT, UNIT 1 (CAC NO. MF6734)

On September 29, 2015, a Category 1 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of FirstEnergy Nuclear Operating Company (FENOC, the licensee) at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. The purpose of the meeting was to discuss Perry Nuclear Power Plant, Unit 1's upcoming license amendment request (LAR) to change its current emergency action levels using the guidance of NEI 99-01, Revision 6, "Development of Emergency Action Levels for Non-Passive Reactors" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML12326A805). A list of attendees is enclosed.

The licensee presented information on its planned emergency action level (EAL) LAR submittal. FENOC's current EAL scheme is based on NUMARC NESP-007, Revision 2, "Methodology for Development of Emergency Action Levels" (ADAMS Accession No. ML041120174). FENOC is proposing to use NEI 99-01, Revision 6 for Perry Nuclear Power Plant, Unit 1. FENOC stated that the proposed EAL scheme change will not alter the license, technical specifications, or change any system, structure, or component in the plant, nor will it necessitate a change to the updated final safety analysis report. Additionally, the EAL scheme change does not affect the environment; therefore, neither an environmental assessment nor an environmental impact statement will be required.

The staff provided clarification on the type of information that should be included as part of the license amendment package based on the guidance in NEI 99-01, Revision 6, the staff's experience with recent EAL LAR submittals, and the type of information the staff has requested in requests for additional information.

No regulatory decisions were made during this meeting.

Members of the public were in attendance by phone. Public Meeting Feedback forms were not received. No comments were received.
