Washington, D.C. 20555-0001

In the Matter of
Florida Power & Light Company
(Turkey Point Units 3 and 4)
Docket Nos. 50-250-LA and 50-251-LA

Dear Administrative Judges:

On June 25, 2015, FPL provided a letter to the Board explaining that two relevant administrative hearings in Florida had been continued to allow for settlement discussions among the parties. These included the challenge to the modification of the Conditions of Certification for Turkey Point Units 3-5 to allow Upper Floridan Aquifer wells (the "Site Certification Modification" hearing) and the challenge to the Administrative Order that would require FPL to submit a Salinity Management Plan (the "Administrative Order" hearing). In the past week, several events have occurred affecting these proceedings.

On October 2, 2015, Miami-Dade County, through its Department of Regulatory and Economic Resources, Division of Environmental Resources Management issued a "Notice of Violation and Orders for Corrective Action" ("NOV") to FPL. FPL and Miami-Dade County resolved the NOV on October 7 by entering into a Consent Agreement under which FPL agreed to take several actions to address water quality impacts associated with the Cooling Canal System, as alleged in the NOV. As a result of this Consent Agreement, Miami-Dade County also entered into a stipulation to withdraw from both the Administrative Order hearing and the Site Certification Modification hearing.

Finally, a hearing is currently scheduled for October 13-16, 2015 on the South Florida Water Management District's approval of FPL's consumptive use permit for withdrawals from the L-31 E Canal. At this point, only one challenger remains to the L-31 E consumptive use permit. Due to the twelve-week continuances, the Administrative Order hearing is currently scheduled for November 2-6, 2015 and the Site Certification Modification hearing is currently scheduled for December 1-4, 2015.

Respectfully submitted,

Signed (electronically) by Steven Hamrick
