October 5, 2015

Secretary
Attn: Rulemaking and Adjudications Staff
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: **Reply to Fuel Cycle Facility Cyber Security Draft Regulatory Basis (80 FR 53478), NRC Docket 2015-0179**

References: (1) Nuclear Energy Institute (NEI) letter dated October 5, 2015, from Janet Schlueter (NEI) to Secretary (NRC)
(2) Fuel Cycle Facility Cyber Security Draft Regulatory Basis (80 FR 53478), NRC Docket 2015-0179

Nuclear Fuel Services, Inc. (NFS) fully endorses the letter submitted by the Nuclear Energy Institute (NEI) on October 5, 2015, (Reference 1) regarding the Nuclear Regulatory Commission's (NRC's) Fuel Cycle Facility Cyber Security Draft Regulatory Basis (80 FR 53478), NRC Docket 2015-0179, issued on September 4, 2015, (Reference 2).

NFS would like to take this opportunity to support the NEI letter which incorporates feedback from NFS in the industry comments attachments. BWX Technologies Nuclear Operations Group-Lynchburg (BWXT NOG-L) hosted an NRC Cyber Security team visit to review the status of cyber security voluntary action implementation. NFS (a BWX Technologies company) was in attendance for the review which occurred the week of September 28, 2015, and provided the NRC team a description of similarities and differences between the NFS and NOG-L facilities. It is NFS' intent to continue working with the NRC to improve overall Cyber Security and protect critical infrastructure by actively participating in the rulemaking process.

If you have any questions, require additional information, or wish to further discuss the information provided herein, please contact Mr. Andrew Sabisch, Licensing and ISA Manager, at (423) 735-5030. Please reference our unique document identification number (24G-15-0027) in any correspondence concerning this letter.

Sincerely,

NUCLEAR FUEL SERVICES, INC.

Joel W. Duling
President
