Subject: Reply to Fuel Cycle Facility Cyber Security Draft Regulatory Basis (80 FR 53478) NRC [Docket 2015-0179]

BWX Technologies, Inc., Nuclear Operations Group- Lynchburg (BWXT NOG-L) fully endorses the letter submitted by the Nuclear Energy Institute (NEI) on October 5, 2015 (Reference 1) regarding the Nuclear Regulatory Commission's (NRC) Fuel Cycle Facility Cyber Security Draft Regulatory Basis (80 FR 53478) [Docket 2015-0179] (Reference 2).

The Federal Register Notice (FRN) was issued on September 4, 2015 and provided the draft Regulatory Basis for public comment by October 5, 2015. The NEI letter incorporates feedback from BWXT NOG-L in the industry comments attachments. BWXT NOG-L recently hosted a NRC Cyber Security team visit to review the status of cyber security voluntary action implementation. Nuclear Fuel Services (NFS) was also represented in the review and provided the NRC team a description of similarities and differences between the NOG-L and NFS facilities. This visit occurred during the week of September 28, 2015 and we hope the information gained during the visit was beneficial for the NRC team. It is our intent to continue working with the NRC to improve overall Cyber Security and protect critical infrastructure by actively participating in the rulemaking process.

If you have questions or require additional information, please contact Chris Terry, Manager of Licensing and Safety Analysis, at cterry@bwxt.com or 434-522-5202.

Sincerely,

B. Joel Burch
Vice President and General Manager
BWXT Nuclear Operations Group, Inc. – Lynchburg.
