Rami,

I need to know what total possession limit you need on the license, i.e., the total of what you currently have and what you want to add. For example it seems that you need at least a total of 320 millicuries on Am-241. Please clarify in the letter and resubmit.

Thanks,

Kevin Null

Kevin:

Per your request, attached is our letter regarding the current and additional nukes.

If you require any additional information, please let me know.

Thank you
