**SUBJECT: NOT-FOR-PROFIT HOSPITAL CORPORATION, LICENSE AMENDMENT,
CONTROL NO. 588264**

Dear Ms. Washington:

By letter received June 12, 2015, the Not-For-Profit Hospital Corporation, a/k/a United Medical Center submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent of a direct license transfer of NRC Materials License No. 08-11182-01. Based on the information provided, we understand that the direct transfer occurred as a result of the District of Columbia government foreclosing upon the assets of the former owner, Capitol Medical Center, LLC. Following the foreclosure, the District of Columbia council statutorily created the Not-For-Profit Hospital Corporation, commonly known as the United Medical Center, as an instrument of the District of Columbia government to operate the hospital. It is our understanding that the licensee name will be changed to the Not-For-Profit Hospital Corporation. We further understand that this transfer will not result in any change to the licensed materials, persons using the license material, location of use of licensed material, or persons responsible for the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the proposed transfer. Enclosed with this letter is the amended license.

Please note that the NRC must give its consent in writing prior to any transfer of control. 10 CFR 30.34(b)(1) requires the following: no license issued or granted pursuant to the regulations in this part and parts 31 through 36, and 39 nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the provisions of the Atomic Energy Act and shall give its consent in writing.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(21).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,
