October 29, 2015

Walter Kidde Portable Equipment, Inc.
ATTN: Patrick Keough, Manager
Global Transportation and Logistics
1016 Corporate Park Drive
Mebane, NC 27302

SUBJECT: WALTER KIDDE PORTABLE EQUIPMENT, INC., AMENDMENT OF
EXEMPT-DISTRIBUTION LICENSE AND SEALED SOURCE AND
DEVICE REGISTRATION

Dear Mr. Keough:

Enclosed find U. S. Nuclear Regulatory Commission (NRC) exempt distribution License No. 32-23858-01E, Amendment No. 14, and inactive Sealed Source and Device Registration Certificate No. NR-1047-D-101-E. The license was amended as requested in your letter dated April 22, 2015, to change the authorization for distribution of smoke detectors in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Chapter 32, Section 32.14.

Please review the enclosed documents carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact me so that appropriate corrections and answers can be provided.

Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the NRC, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.
2. Distribute only those products containing radioactive material which are specifically authorized in your license.
3. Notify the NRC in writing within 30 days of any change in mailing address.
4. Request and obtain appropriate amendments if you plan to change control or ownership of your organization, change locations of distribution of products containing radioactive material, or make any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with NRC.

5. Submit a complete renewal application or termination request at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 60 days before the expiration date. Continued distribution of products containing radioactive material after your license expires is a violation of the NRC regulations.
6. In accordance with 10 CFR 30.36, request termination of your license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.

You will be periodically inspected by the NRC. Failure to conduct your program in compliance with the NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," (NUREG-1600).

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions, please contact me at (301) 415-5477 or by electronic mail: Richard.Struckmeyer@nrc.gov. Any questions regarding the sealed source and device registration should be directed to Lymari Sepulveda at (301) 415-5619 or by e-mail at Lymari.Sepulveda@nrc.gov.

Sincerely,

/RA/

Richard K. Struckmeyer
