**Subject:** [External\_Sender] Shutdown of pilgrim nuclear power plant

Dear Mr. Burns,

As a trapped, downwind neighbor of Pilgrim Nuclear Power Plant (I live on Cape Cod), my fear is that the plant will not be adequately protected during the extended shut-down period. On behalf of my family, I implore you to expedite and ensure optimal safety during and after this dangerous process. Please try to imagine you and your family living here and act accordingly. Thank you.

Sincerely,

Lynn Abbott
