Merrilee,

Please find the attached "Supplemental Petition" filed this date under NRC regulations at 10 CFR 2.206 - along with 3-attachments in support of the petition.

Please provide these documents to the NRC Petition Review Board prior to the scheduled teleconference call related to this important matter - as these documents will be referenced during the teleconference call accordingly.

Please confirm receipt of these documents via email at your convenience.

Thanks!
Thomas

Hello Merrilee:

Yes, that date and time is acceptable. Yes, the Enforcement Petition is related to - and includes all NRC licensed commercial nuclear power plants - and those NRC licensed facilities that may not be currently operating - but continue to store nuclear fuel at their facilities.

Regards,
Thomas

Mr. Saporito:
I have scheduled a teleconference with the PRB for October 20 at 11-12 am.
Do you accept?
Is the scope of your petition "all nuclear operating plants?"
Thanks in anticipation!

Merrilee

Ms. Banic:
Yes, I desire a teleconference call to address the NRC-PRB related to the drone petition.

Kind regards,
Thomas Saporito

Mr. Saporito:

I will be the petition manager for your petition on drones identified in the transcript below. I am writing to ask if you would like to address the PRB before it meets to make an initial recommendation on your petition.

Thanks,
Merrilee Banic

Subject: Drones

Mr. Saporito.

During our July 30, 2015, phone conference, you presented your concern that drones could be used to threaten the security of a nuclear power plant. The transcript of this discussion is identified as ML15218A475 in ADAMS.

The Petition Review Board (PRB) present during that conference had been selected specifically to consider the merits of your 2.206 Petitions regarding fracking. To

adequately consider your concern regarding drones, the PRB has decided this issue should be dealt with as a new 2.206 petition. You will be contacted by the NRC regarding the drone petition in the near future.

If you do not agree with this approach, please contact me.

Thanks,

Perry Buckberg
