General Comment

As a resident of Miami, I am opposed the FPL's expansion plans for Turkey Point. I am against paying for something that has not been approved. I am against any expansion of Nuclear energy in a very environmentally sensitive location. Another area less challenging should be considered. I am also against the proposed construction of power towers on the US1 corridor. It is 2015 and any decision for any type of power lines should be under ground and not above ground.
