Changes to the Monticello Nuclear Generating Plant Security Plan, Training and Qualification Plan, Safeguards Contingency Plan, and Independent Spent Fuel Storage Installation Security Program

Pursuant to the requirements of 10 CFR 50.54(p), Northern States Power Company-Minnesota (NSPM) doing business as Xcel Energy submits Revision 16 of the Monticello Nuclear Generating Plant Security Plan, Training and Qualification Plan, Safeguards Contingency Plan, and Independent Spent Fuel Storage Installation Security Program (here after referred to as the Security Plan). The change was effective on October 16, 2015.

A summary of changes is provided in Enclosure 1. The analysis of protective strategy change is provided in Enclosure 2. The revised Security Plan is provided in Enclosure 3. In accordance with 10 CFR 73.21, the information contained in the Enclosures should be withheld from public disclosure as it is designated as Safeguards Information.

The revision of the security plan 1) clarifies a position title within the organization, 2) describes a new vehicle barrier employed by the site, 3) describes protective strategy changes related to measures employed during a specific set of conditions, 4) describes various changes to the protective strategy and armed response team member designations and 5) clarifies the configuration of uninterrupted power supplies used with security equipment.

NSPM has reviewed the changes in this revision of the Security Plan and determined that they do not decrease the effectiveness of the Security Plan.

Please contact Mr. Kevin Nyberg at 763-295-1045, if you have any questions related to this submittal.
