SUBJECT: REVIEW OF HONEYWELL METROPOLIS WORKS EMERGENCY RESPONSE
PLAN UPDATE, HONEYWELL INTERNATIONAL, INC. (TAC NO. L34331)

Dear Mr. Pritchett:

By letter dated August 26, 2015 (U.S. Nuclear Regulatory Commission's (NRC) Agencywide Documents Access and Management System (ADAMS) Accession No. ML15244B141), as required by Title 10 of the *Code of Federal Regulations* (10 CFR) 40.35(f), Honeywell International Inc. (Honeywell or the licensee) submitted its updated Honeywell Metropolis Works (MTW) Emergency Response Plan (ERP), dated August 18, 2015, to the NRC regarding the revisions made to the ERP on March 9, 2015, and August 18, 2015. In 10 FR 40.35 (f), it states, in part, "The licensee may change the plan without Commission approval if the changes do not decrease the effectiveness of the plan. The licensee shall furnish the change to the Director, Office of Nuclear Material Safety and Safeguards, by an appropriate method listed in 10 CFR 40.5, and to affected offsite response organizations, within six months after the change is made."

The NRC staff reviewed the Honeywell MTW's ERP, Revision 7, dated August 18, 2015, and found that the changes were made in accordance to 10 CFR 40.45(f).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
