REFER: FOIA/PA-2016-0012

Dear Sir,

Enclosed is a copy of a Freedom of Information Act (FOIA) request received by the U.S. Nuclear Regulatory Commission (NRC) from Mr. Charles Helms, dated October 09, 2015 for your agency's handling. Please note that Mr. Helms narrowed the scope of his request on October 20, 2015.

The NRC does not have responsive records to this request, since the Hanford Nuclear Site is a Department of Energy facility.

If you have any questions regarding this matter, please call Gabriele Chidichimo at (301) 415-6968.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Andoh".

Subject: FOIA/PA request 2016-0012- clarification of scope

In regards to the clarification of my scope, I offer new search parameters to avoid both incurring charges on my part and undue stress on yours. I'd like access to accident records and reactor anomalies filed during the second week of June, 1954 at the Hanford Nuclear Site. I'm really pleased so far at your commitment to helping me retrieve this information and would like to express satisfaction at your keeping me updated as to the progress of my request.

Subject: [External_Sender] FOIA request

Hi, I'd like to request access related to day-to-day operations at the Hanford site NPP from the year 1954, including accident reports and anomalies within the main reactor. If this is too broad a search request, just reply saying so, and I'll be glad to tighten my parameters.
