Re: Approval of Non-Significant Revision Application, Critical Correspondence File TFN 6 3/179 as Change no. 86 and Termination of TFN 3 1/251 Leakage of Purge Storage Reservoir (PSR) #2.

Dear Mr. Garoutte:

This letter approves your Non-significant Permit Revision for the insertion of the August 24, 2015 Letter from Douglas Mandeville Project Manager NRC, regarding PSR #2 and the Casing Leak Investigation TFN 6 3/179 and the termination of TFN 3 1/251. This approval letter also recognizes NRC's regulatory authority to oversee the mitigation and compliance efforts for PSR #2.

In the event that revisions other than those listed on the Index of Changes inadvertently occurred within this package, those revisions are not automatically considered approved.

The LQD tracks this NSR as Change No. 86.

Please feel free to contact me if questions or concerns arise.

Respectfully,

Miles Bennett

Uranium Coordinator
