**Re: MidMichigan Medical Center Transfer of Control (NRC License No. 21-01549-02, Control No. 585653)**

Dear Colleen Carol Casey,

We would like to request written permission from the NRC for the following items:

- Item #1:** Change in the name of the licensee from "MidMichigan Medical Center" to "MidMichigan Health."
- Item #2:** Transfer of control associated with affiliation agreement between the licensee and Michigan Health Corporation, a subsidiary of University of Michigan Health System.

**Additional Information:** This letter is being submitted as additional information regarding MidMichigan Medical Center's radioactive materials license renewal (NRC License No. 21-01549-02, Control No. 585653).

Thank you in advance for your help in processing this amendment. If you have any questions or require additional information, please feel free to contact me (989) 839-1407.

Sincerely,

Victor D. Hosfeld, MS, DABR  
Chief Physicist and RSO  
MidMichigan Health

RECEIVED NOV 02 2015

MidMichigan Medical Center would like to request the Nuclear Regulatory's (NRC's) written consent to change the name of the licensee from "MidMichigan Medical Center" to "MidMichigan Health." At the time of the most recent license renewal (Control No. 585653), it was discovered that the name of the licensee was incorrect, and thus the licensee would like to make this correction.

Additionally, MidMichigan Medical Center would like to request the NRC's written consent to the transfer of control of the licensee, associated with the establishment of an affiliation agreement with Michigan Health Corporation, a subsidiary of the University of Michigan Health System. The following information addresses regulatory compliance, required by 10 CFR 30.34(b) and NUREG 1556, Vol. 9, Rev. 2, Appendix G.

- (1) On June 21, 2013, the University of Michigan Regents through its operating division and subsidiary (University of Michigan Health System and Michigan Health Corporation, respectively), together with the licensee, executed an affiliation agreement. The University of Michigan Health System (UMHS) includes all hospitals, health centers, and the medical school at the University of Michigan. Michigan Health Corporation (MHC) is a subsidiary of UMHS, which manages joint ventures and partnerships with other healthcare organizations. The description of the transaction (transfer of stocks or assets, or merger) are as follows:

Under the affiliation agreement, MHC holds 0.1% membership interest in the licensee, while the licensee retains 99.9% membership interest.

The licensee is governed by a Board of Directors consisting of not less than 11 and not more than 18 persons. The licensee's Board of Directors must include at least two directors nominated by MHC (or 12% representation if the number of directors increases above 18%). Selected members of the corporate board also serve on various committees. At least one UMHS director must serve on the licensee's Executive committee at all times.

While the licensee has requested a change to the name of the licensee from "MidMichigan Medical Center" to "MidMichigan Health," there will be no change in name associated with the affiliation agreement.

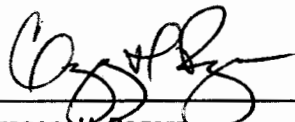

If the NRC requires further information regarding the description of the transaction, please contact Victor D. Hosfeld, MS, DABR (RSO of licensee) at (989) 839-1407.

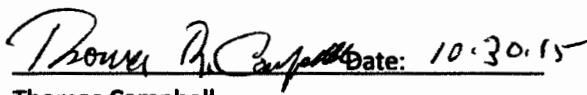

- (2) There has been no change in personnel or duties that relate to the licensed program as a result of the affiliation agreement.

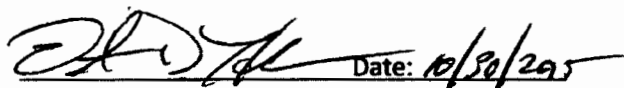

- (3) There has been no change in the location, facilities, equipment, radiation safety program, or procedures that relate to the licensed program.
- (4) There has been no change regarding the status of the existing surveillance program (survey, wipe tests, quality control) that relates to the license.
- (5) All records concerning the safe and effective decommissioning of the facility will be maintained by the licensee. These records include documentation of surveys of ambient radiation levels and / or removable contamination, including methods and sensitivity. The licensee does not possess any quantity of radioactive materials listed in 10 CFR 30 Appendix B, in excess of thresholds set forth by 10 CFR 30.35. Therefore a decommissioning funding plan is not applicable to the licensee.
- (6) The licensee will abide by all constraints, conditions, requirements, and commitments previously made to the NRC, under the affiliation agreement.

Thank you for your time and consideration in this matter. Should you have any questions, or you require any further information, please feel free to contact Victor Hosfeld at (989) 839-1407.

Sincerely,
