NRC STAFF'S 45th STATUS REPORT
IN RESPONSE TO THE ATOMIC SAFETY AND
LICENSING BOARD'S ORDER OF FEBRUARY 16, 2012

In accordance with the Atomic Safety and Licensing Board's ("Board") "Order (Granting NRC Staff's Unopposed Time Extension Motion and Directing Filing of Status Updates)" ("Order"), issued on February 16, 2012, the NRC Staff ("Staff") herewith provides its 45th monthly status report to the Board.

Safety Issues

1. Track 2 Safety Issues. On November 6, 2014, the Staff issued Supplement 2 to the Safety Evaluation Report ("SER") related to license renewal of Indian Point Units 2 and 3 ("IP2/IP3").¹ Therein, the Staff addressed changes made to the license renewal application ("LRA") through Amendment 14;² revisions to the IP2 Updated Final Safety Analysis Report

("UFSAR");³ information provided by Entergy Nuclear Operations, Inc. ("Entergy" or "Applicant") in response to Staff requests for additional information ("RAIs") following the issuance of SER Supplement 1;⁴ and the Staff's evaluation of the IP2/IP3 Reactor Vessel Internals ("RVI") Aging Management Program and Inspection Plan ("AMP"), which relates to Contention NYS-25.⁵

On March 31, 2015, the Board granted the State of New York's ("New York") and Riverkeeper, Inc.'s motions to supplement the bases for Contentions NYS-25 and NYS-38/RK-TC-5).⁶ New York and Riverkeeper filed revised statements of position, written testimony with affidavits, and exhibits on June 9, 2015; Entergy and the Staff filed new or revised statements of position, written testimony with affidavits, and exhibits on August 10, 2015; and rebuttal testimony, exhibits and revised statements of position were filed by New York and Riverkeeper on September 9, 2015. On October 15, 2015, the Board granted New York's request for leave to file two additional exhibits and supplemental testimony;⁷ Entergy filed responsive testimony and exhibits on October 29, 2015. Proposed Board questions, motions for leave to conduct cross-examination and cross-examination plans were filed by the parties on October 9, 2015. The Staff has informed the parties that it plans to file corrections to the "NRC

NRC000168) and a new exhibit comprised of Section 3.0.3.2.18 of NUREG-2101, “Safety Evaluation Report Related to the License Renewal of Salem Nuclear Generating Station” (June 2011), other pages of which were admitted as Ex. ENT000195-00-BD01. Entergy has stated that it does not oppose the Staff’s filing of these documents; the Staff is awaiting New York’s response, and will file the documents shortly after hearing from New York.

On July 20, 2015, the Board denied New York’s motion to withdraw the proprietary designation of five documents.⁸ On September 8, 2015, New York filed a petition for interlocutory review of the Board’s Order; responses were filed by Entergy, the Staff and Westinghouse on September 8, 2015. On October 20, 2015, New York filed a second motion seeking the disclosure of 10 additional Westinghouse Calculation Notes; responses in opposition to that motion were filed by Entergy and the Staff on October 29, 2015. On October 30, 2015, the Board directed the parties to file final exhibit lists by November 3, 2015, and scheduled a telephonic prehearing conference to be held on November 5, 2015, at which objections to proposed exhibits and any outstanding motions will be addressed.⁹ Evidentiary hearings are scheduled to be held in Tarrytown, NY, on November 16-20, 2015.¹⁰

2. Other Safety Issues. There has been no change in this item since the Staff filed its previous status report. The Staff is reviewing issues associated with two recent Interim Staff

Environmental Issues

3. FSEIS Supplement. There has been no change in this item since the Staff filed its previous status report. As stated previously, the Staff intends to issue a second supplement to the Final Supplemental Environmental Impact Statement (“FSEIS”) for license renewal of IP2 and IP3,¹² which will address new information received by the Staff since issuance of the previous FSEIS Supplement (FSEIS Vol. 4) in June 2013. The matters to be addressed in this FSEIS supplement include Entergy’s May 6, 2013 submittal of revised engineering project cost information for severe accident mitigation alternatives (“SAMAs”); Entergy’s February 19, 2014 submittal of new aquatic impact information; the June 2013 revision of 10 C.F.R. Part 51, Table B-1, and the Generic Environmental Impact Statement (“GEIS”) for license renewal;¹³ the September 2014 amendment of 10 C.F.R. § 51.23(b) regarding the continued storage of spent

nuclear fuel;¹⁴ the U.S. Fish and Wildlife Service's listing of the northern long-eared bat as an threatened species;¹⁵ and other matters. As previously stated,¹⁶ the Staff expects to issue the Draft FSEIS Supplement in January 2016 and the Final FSEIS Supplement in September 2016.

4. Contention NYS-35/36. There has been no change in this item since the Staff filed its previous status report. On July 14, 2011, the Board issued LBP-11-17, granting summary disposition on Contention NYS-35/36 (Implementation of Cost-Beneficial SAMAs) in favor of New York.¹⁷ On February 18, 2015, the Commission granted the Staff and Entergy's petitions for review of the Board's rulings on Contention NYS-35/36, and instructed the Staff to respond to four questions.¹⁸ In accordance with the Commission's Order, the Staff filed its response on March 30, 2015;¹⁹ replies were filed by Entergy and New York on May 11, 2015.

In May 2013, the Applicant submitted a letter to the Staff (NL-13-075), reporting the results of its completed engineering project cost estimates for Severe Accident Mitigation Alternatives ("SAMAs") that previously had been identified as potentially cost-beneficial.²⁰ The

Applicant noted, *inter alia*, that it was submitting the information “to support resolution of certain issues identified by the Board” in LBP-11-17. On October 6, 2014, the Staff transmitted RAIs to the Applicant concerning its refined engineering project cost information; the Applicant submitted its responses on November 20, 2014.²¹ As stated previously, the Staff plans to present its evaluation of the Applicant’s revised SAMA cost information in the upcoming draft FSEIS Supplement.²² In accordance with the Board’s Order of July 9, 2013, “adjudicatory submissions based on NL 13 075 are due no later than 60 days after the Staff issues its draft FSEIS supplement or an equivalent document discussing its review of NL 13 075. . . .”²³ The Staff will provide further information to the Board regarding this issue when available.

5. Contention NYS-12C (SAMAs). There has been no change in this item since the Staff filed its previous status report. On February 14, 2014, New York filed a petition for Commission review of the Board’s decision in LBP-13-13,²⁴ concerning its resolution of Contention NYS-12C;²⁵ on April 28, 2014, New York filed a petition for review of the Board’s

See *Entergy Nuclear Operations, Inc.* (Indian Point Nuclear Generating Units 2 and 3), CLI-15-6, 81 NRC 340 (Mar. 9, 2015) (reversing the Board’s resolution of Contention NYS-8 (Transformers), and reversing in part, and affirming in part, its resolution of Contention CW-EC3A (Environmental Justice)).

Order denying its motion to reopen and reconsider that decision.²⁶ On February 18, 2015, the Commission granted New York's petition for review and directed the parties to respond to eight related questions.²⁷ In accordance with the Commission's Order, initial briefs were filed by the Staff, Entergy, New York, and the State of Connecticut on March 30, 2015; reply briefs were filed by the Staff, Entergy and New York on April 29, 2015.

6. CZMA Issues. To the best of the Staff's knowledge, information and belief, the current status of CZMA-related issues is as follows.

(a) *Previous Reviews*. On June 12, 2013, the Board denied the Applicant's and New York's motions seeking the entry of a declaratory order regarding Entergy's claim that New York had previously conducted a review of IP2/IP3 for consistency with the New York State Coastal Management Program ("CMP"), such that no further review is required under the Coastal Zone Management Act ("CZMA").²⁸ The Board left open the possibility that the motions might be re-filed after consultations between the Staff and New York pursuant to 15 C.F.R. § 930.51(e). The Staff has since engaged in consultations with the New York State Department of State ("NYSDOS") and the Applicant. On December 6, 2013, the Staff transmitted a request for information to NYSDOS regarding prior reviews of Indian Point's consistency with the New York State Coastal Management Program.²⁹ A series of written and oral communications

between the Staff and NYSDOS occurred,³⁰ and on May 30, 2014, NYSDOS provided its response to the Staff.³¹ On July 15, 2014, Entergy submitted its views regarding the NYSDOS response,³² to which NYSDOS replied on July 25, 2014.³³ Entergy and New York submitted additional correspondence to the Staff on November 25 and December 3, 2014, respectively.³⁴ The Staff will provide further information to the Board regarding this matter when available.

(b) *Grandfathering*. On December 11, 2014, the State of New York Supreme Court, Appellate Division, Third Judicial Department, reversed the Supreme Court's December 2013 decision, and held (in a 5-0 decision) that Indian Point Units 2 and 3 were "grandfathered" under New York's Coastal Management Program and are therefore exempt from consistency review under the CMP.³⁵ On June 4, 2015, the Court of Appeals granted New York's motion for leave to appeal; a briefing schedule has been established, culminating in New York's filing of a reply brief on January 18, 2016.

(c) *2012 Consistency Certification*. On December 17, 2012, Entergy filed a certification with the NYSDOS, asserting that license renewal of IP2/IP3 is consistent with the New York CMP; on November 5, 2014, Entergy submitted a letter to NYSDOS, stating that it was withdrawing its consistency determination, subject to resubmittal following issuance of the Staff's Final FSEIS Supplement in March 2016.³⁶ In response, NYSDOS stated that the withdrawal was not effective and it offered Entergy an opportunity to request a stay of NYSDOS's decision;³⁷ Entergy replied to NYSDOS on December 1, 2014.³⁸ NYSDOS and Entergy entered into a series of agreements deferring New York's review of Entergy's consistency certification until October 30, 2015; absent any extension (and to our knowledge, there has been none), NYSDOS indicated it will issue its consistency determination by November 6, 2015.³⁹

7. Aquatic Impacts. There has been no change in this item since the Staff filed its previous status report. As stated previously, on February 19, 2014, Entergy submitted new information to the Staff regarding the impacts of plant operation on various aquatic species in the Hudson River,⁴⁰ modifying the information that had been evaluated in the FSEIS and FSEIS

Supplement (FSEIS Vol. 4).⁴¹ The Staff transmitted a request for additional information to the Applicant on August 28, 2014, as amended on September 26, 2014,⁴² to which Entergy responded on October 27, 2014.⁴³ The Staff issued further RAIs on aquatic issues on February 18, 2015,⁴⁴ to which Entergy responded on April 6, 2015.⁴⁵ The Staff will present its evaluation of this information in the upcoming draft FSEIS supplement.

8. Endangered and Threatened Species. There has been no change in this item since the Staff filed its previous status report. On April 2, 2015, the U.S. Fish and Wildlife Service published a final rule listing the northern long-eared bat as threatened throughout its range, which includes the Indian Point site.⁴⁶ On April 22, 2015, the Staff transmitted RAIs to Entergy concerning the northern long-eared bat;⁴⁷ Entergy's response was received on June 8,

2015.⁴⁸ On July 1, 2015, the Staff issued a Biological Assessment, finding that license renewal of IP2/IP3 may affect but is “not likely to adversely affect” the northern long-eared bat and Indiana bat;⁴⁹ on July 14, 2015, FWS concurred in this assessment.⁵⁰

9. Other Matters. The Staff is not currently aware of any other matter that has the potential to impact the schedule for hearings in this proceeding. In accordance with the Board’s direction (Order, at 2), the Staff will notify the Board as soon as any other event with potential to alter the hearing schedule arises.
