General Comment

Docket ID NRC 2015-0057

I just posted my first public comment on "Linear No-Threshold Model and Standards for Protection Against Radiation", and my comment referred to certain sources (including "Mining Awareness"), which contains important new evidence which disproves the underlying NRC premise in 'hormesis model'.

Since I could not disconnect during my online NRC public comment session, I indicated I would post a second comment containing the specific reference sources, as follows:

"Mining Awareness", Wednesday October 21, 2015

"New Study of US - UK- French Nuclear Workers Supports Linear No Threshold Model - Radiation is Bad for You."

If possible, make sure these source references become linked with my first public comment on this item. Thank you in advance.
