Hello Eric

Let see if I got it right this time

Regards
Larry

Subject: RE: Request for revised exempt distribution report

Hello Larry,

Thanks for sending me a scan of your report. Please revise your report to indicate that the products are transferred for use under 10 CFR 30.20 or equivalent regulations of an Agreement State. This is required by 10 CFR32.29(c)(2).

Regards,
Eric

Subject: Request for revised exempt distribution report

Dear Mr. Fahey,

I've reviewed your exempt distribution report dated January 14, 2015.

Please revise and resubmit your report. In revising your report, please address the following issues:

Please review the model numbers that you provide to ensure that they are accurate. Device registration certificate NR-1234-D-101-E lists model numbers that are slightly different than those listed in your report. Your report lists a model "5014i" whereas NR-1234-D-101-E indicates "5014i Beta." Your report indicates model "5030i Beta," whereas NR-1234-D-101-E lists "5030i SHARP."

The report must indicate that the products are transferred for use under 10 CFR 30.20 or equivalent regulations of an Agreement State.

The report must include the following information on products: For each radionuclide in each type of product and each model number, the total quantity of the radionuclide.

Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

If you have any questions, please feel free to contact me.

Regards,
Eric
