## General Comment

SHAME ON YOU! SHAME!! The NRC knows very well how dangerous exposure to radiation is. If you have forgotten, i suggest you go back to the FOIA documents from mid March of 2011 and review how you all were scrambling around like rats on a sinking ship trying to get ahold of the KI. I vote NO, absolutely do not increase my allowable levels to radiation exposure, I take great offense at having an increased chance of getting cancer, autoimmune diseases, heart issues and many more illnesses so companies like General Electric and Westinghouse can make a buck at the expense of my and my childrens or grandchildrens healths. Does no one at the NRC have a shred of ethics? Do not think for a minute that if you raise the allowable levels that you are off the hook when the citizens get sick. YOU WILL BE HELD ACCOUNTABLE! Start doing the jobs you were hired to do...protect the citizens.
