Dear Mr. Gabardy,

I've reviewed your exempt distribution report dated 7 January 2014.

Please revise and resubmit your report to indicate the physical form of each radionuclide transferred. Also, your report was dated January 7, 2014. Please confirm that the information in your report covers the calendar year 2014.

You are under no obligation to report the number of items transferred under your license; however, the NRC is collecting this information in relation to trends in the industry and estimation of public exposures to radiation. If you were to provide this information, we would welcome it.

Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution  
Director, Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

If you have any questions, please feel free to contact me.

Regards,  
Eric
