Steve:

I was just informed that the Packing Slip review of this CD did not pass. It appears that there are two items which do not agree with or follow from their prior submissions, these items are:

Their last submission was Submission #13, which was only the Non-Public version (something they have done for a few prior submissions also). In any case, the current CD is labeled as Submission #15, which the system cannot accept. We've never processed a Submission #14. This needs to be corrected.

The current submission does not align with the previous one(s). In previous submissions there was content corresponding to a Submission Document labeled Folder #11 and on this submission there is no mention of such Folder #11. It is missing.

This may just be an oversight in preparing the Packing Slip this time.

I hope this information is clear, and believe provides adequate information to address the issues.

Let me know if you have any questions.

Thanks
