Hi Eric,

Sure, I am happy to provide all what you request.

Let me gather all the information and send a hard copy ASAP. Will also kindly let you know if any question I may have, thank you very much.

Regards,

Fanlight Inc.

Subject: NRC Review of Exempt Distribution Report; Fanlight; License No. 04-23991-01E

Dear Mr. Lin,

I've reviewed your exempt distribution report dated January 2015.

Please revise and resubmit your report to indicate the following items that are required by 10 CFR 32.16:

- The products were transferred for use under 30.15, giving the specific paragraph designation (for example, 10 CFR 30.15(a)(8) for electron tubes),
- a description and/or identification of the type of each product, including the model number if applicable;
- the total quantity of each radionuclide contained in each type of product/model; and
- the number of units of each type of product transferred, by model number (if applicable).

Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

If you have any questions, please feel free to contact me.

Regards,
Eric
