Dear Mr. Toelle:

This is in response to your letter dated August 31, 2015 (ACO 15-0028), submitting for the U.S. Nuclear Regulatory Commission (NRC) review and approval proposed changes to Master Classified Distributive Information Networks Plan SP-2605-0028 for Classified Networks (Secret-Restricted Data and Below). The proposed changes to the plan would allow for the use of dual High-Definition Multimedia Interface cords in conjunction with the overhead projector within the X-7726 facility, Conference Room AC-3.

The NRC staff has completed its review of your request in conjunction with subject matter experts from the U.S. Department of Energy's Nuclear Energy Oak Ridge Site Office, the Designated Approving Authority. Based on the review of the information provided in your submittal, the NRC staff has concluded that the proposed changes are acceptable and, therefore, are approved.

This action closes efforts under Technical Assignment Control No. L34333.

In accordance with Title 10 of the *Code of Federal Regulations* 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS).
