---

Hi Sylvia,

Attached is a document that provides NYSErDA's responses to the comments you sent me on October 23 on the revised Field Sampling and Dose Assessment Plan. Also attached are four maps that are referenced in the comment response document.

Thank you again for your comments, and we look forward to hearing the decision of the Seneca Nation in regard to NYSErDA's request to enter the Cattaraugus Territory to conduct the soil sampling.

Best wishes,  
-Paul
