

UNITED STATES
NUCLEAR REGULATORY COMMISSION
ADVISORY COMMITTEE ON REACTOR SAFEGUARDS
WASHINGTON, DC 20555 - 0001

July 30, 2015

Mr. Thomas Bergman
Vice President, Regulatory Affairs
NuScale Power, LLC
1100 NE Circle Blvd., Suite 200
Corvallis, Oregon 97330

Dear Mr. Bergman:

Please accept this letter of thanks for hosting the Advisory Committee on Reactor Safeguards Future Plant Designs Subcommittee on July 21 and 22, 2015. You and your outstanding team provided a warm welcome, detailed and informative briefings on your reactor design, scenario runs at your simulator facility, and tours of the upper module mock-up and the NuScale integral system test facility. The scenarios that you ran at your 12-module simulator facility were especially informative and will be very helpful to our reviews. We also appreciate your efforts to organize our visit to the APEX, Hydro-Mechanical Fuel Test Facility, and High Temperature Test Facility at the Oregon State University (OSU).

We are very thankful for the personal attention that Dr. Reyes and Mr. Atkinson provided to our group. Your staff worked diligently to ensure that our questions were answered accurately and completely. The opportunity to interact directly with you and your staff was of great value to all of us, and we found everyone to be very knowledgeable about the proposed design and operation. The professionalism, responsiveness and preparation for this visit by your staff was outstanding, particularly the efforts of Mr. Ross Snuggerud, Dr. Kent Welter, Mr. Bob Houser, Mr. Zackary Rad, and Ms. Katy Kessler.

Please convey our thanks to all the presenters at our meeting and our tour guides, including Drs. Qiao Wu, Wade Marcum and Brian Woods at the OSU. The members very much appreciate the time and effort you and your staff took to make this a successful and worthwhile event.

Sincerely,

/RA/

John W. Stetkar, Chairman
